

Rose Golf is proud to support the Women in Golf Charter. Rose Golf have a commitment to excellence, inclusivity, innovation and expanding opportunities. Through our current events, we have created additional playing prospects for female professionals, female juniors and female disabled golfers.

The driving force behind our Rose Ladies Series and Rose Ladies Open is our focus on elevating, growing and showcasing the presence of women within the professional game of golf. These tournaments have also given supporters the opportunity to watch and engage with the players in person, via social media and global TV coverage.

Our work with the Junior Golf Championship is focused on creating equal opportunities and access to some of the most exciting young female golfers in the UK. Giving them additional exposure, playing and development opportunities through our support and guidance, whilst also providing chances to participate in our professional events.

Women serve in key roles at Rose Golf, with our Founder, Kate Rose striving for change, recognition and parity within the world of golf for women. Women are integral to Rose Golf as a business, leading in the planning and execution of our strategy and development to ensure inclusion and the celebration of female athletes in golf.

As a signatory of the Women in Golf Charter, we commit to continuing to promote inclusion within golf for all women, we will achieve this via:

- Continuing to provide playing opportunities for all women in golf at both professional and amateur level.
- Continuing to provide exposure via social media, TV coverage and community outreach programmes for women in golf.
- Continuing to provide these events to showcase the women's game and provide genuine role models for girls to watch, meet and have the opportunity to engage with.
- Highlighting and celebrating what female athletes mean for the game of golf.
- Continuing to incorporate women in all aspects of our work such as broadcast presenters, referees, and the wider operational team.
- Working closely with governing bodies to collaborate on ways in which we can support and advance women in golf.

We commit Rose Golf Ltd to be a signed up supporter to The Women In Golf Charter.
